

Information regarding an Initial Consultation:

The purpose of the initial interview is for me to meet with the parents and collect background information and a history of the presenting concern(s). Please bring all June elementary report cards and, if applicable, all high school report cards as well as any assessment information (i.e., speech and language report, provincial testing results etc.). If this is a request for a learning assessment for an elementary school child, a one page summary of strengths and concerns provided by the teacher is very helpful, as are work samples.

My goal during this initial consultation is to determine if this is an appropriate referral to my practice and what services (assessment and/or therapy) are most appropriate.

This initial consultation is typically one hour in length.

I bill \$220.00 for this consultation and take payment by **cheque** or **cash**. A receipt is provided.

For information about me, the practice, services or fees please see my web site www.drdarlene.ca.

I look forward to meeting with you.

PLEASE NOTE THAT CLIENT PARKING IS ON SYDENHAM STREET AND IS FREE.

There is no client parking in the courtyard in front of my office.

Dr. Darlene Elliott-Faust, C.Psych.
Psychologist
